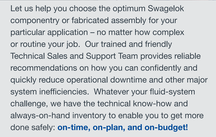
Trusted System

EVALUATIONS & ADVISORIES

Media Leakage | Industrial Hose Audits:

Best Practices for Safety, Selection, Sizing, and Storage

Our **Energy Management Specialists** will conduct an on-site survey to identify and tag the leaking tube fitting, pipe, and valve connections that put your workers, equipment, and product, and overall profitability at substantial risk. Our certified **Hose Advisors** will closely audit your current hose usage to determine if your hose types, routes, lengths, and end connections are ideally suited to your specific applications.



Proven

APPLICATION EXPERTISE

Let us help you choose the optimum Swagelok componentry or fabricated assembly for your particular application – no matter how complex or routine your job. Our trained and friendly Technical Sales and Support Team provides reliable recommendations on how you can confidently and quickly reduce operational downtime and other major system inefficiencies. Whatever your fluid-system challenge, we have the technical know-how and always-on-hand inventory to enable you to get more done safely: **on-time, on-plan, and on-budget!**
