Swagelok Western New York

Swagelok Orbital Weld System

Consistent | Repeatable | Reliable

Why Orbital Welding?

Orbital welding has proven its merits in many different industries including:

- Aerospace
- Chemical
- Oil & Gas
- Sanitary
- Power Generation
- Semiconductor

The technology is versatile enough to fit an even wider range of applications.

Orbital Welding

Swagelok's Orbital Welding System's unique modular fixturing provides the versatility to weld numerous tubing, pipe, and component combinations required for system fabrication.

Our Welding System is supported by:

- Local Sales and Service Team
- Product Application Knowledge
- Complete line of tubing, weld fittings and valves
- Continuous expansion of our capabilities

Equipment We Offer

- (7) Orbital Power Supplies
- (20) Weld Heads
- (6) Facing Tools
- (1) Tube Saw
- Purge Systems
- Service equipment as needed

Welded tubing diameter ranges from 1/16" to 4."

Pipe sizes are also available.

Swagelok Western New York's Orbital Weld Program is located in a new state of the art facility that houses our welder sales and rental program.

Rochester Facility

Training

Locally Available

- On-site, hands-on program
- Theory & practical training customized to meet your needs
- Class taught by certified Swagelok instructors

At our Factory

- 5 day class held in Cleveland, Ohio
- Theory & practical training customized to meet your needs
- Earn an ASME Section IX Certificate
