

Swagelok®

Swagelok® Custom Solutions

We Understand YOU

From project start to completion, sometimes you need to work with a supplier that provides a full range of products and solutions

Whether YOU are making

- Automatic Change Over Panels
- Bent Tube Assemblies
- Distribution Manifolds
- Gas Sticks
- Grab Sample Systems
- Instrument Stands
- Instrument Enclosures
- Leak Test Setups
- Pressure Reducing Stations
- Purge Gas Control Panels
- Stream Selecting Assemblies
- Sample Cylinder Assemblies
- Sample Conditioning Subsystems
- Test Stand
- Valve Control Boxes
- Welded Assemblies

We can Help

We can be your Technical Partner

Swagelok Custom Solutions refers to our expert capability to supply simple and complex assemblies using Swagelok products and other customer-specified components. Swagelok guides you every step of the way, from the design to the execution phase.

And our expertise goes beyond our own components. We also deliver solutions that can include custom wiring, automation and even third-party components.

Our team of highly experienced professionals are here to help you solve fluid system challenges.

The Swagelok Advantage

- Higher efficiency
- Greater flexibility
- Technical expertise
- Global capabilities delivered locally
- Work taken off your desk
- Faster response

How do we achieve this

We deliver so much more than custom assemblies.

We are at your service to create assemblies to meet the unique needs of your application – from idea through to finished product.

Whether simple and small, or complex and large, we will work with you to solve your assembly needs.

We Can

- Build from scratch (create the P&ID)
- Convert from an existing P&ID
- Build from your drawing

Our Process

If you have an Idea

We will help you design it

We will create CAD drawing

And we will warranty it

We will assemble the components

We will get your approval
