

Swagelok Custom Solutions

From concept to completion

STEP 1

IDEA

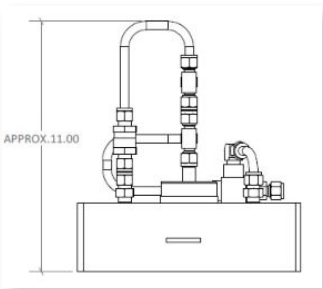

Share your initial idea. It can be a concept, napkin sketch, or anything in between. We partner with you from start to finish.

STEP 2

DESIGN

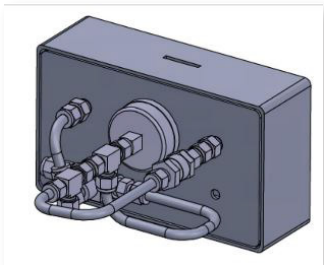

We'll work alongside your team to overcome challenges, optimize your design, and meet your exact specifications.

STEP 3

CAD

Leverage our engineering and application expertise to enhance layout and maximize performance.

STEP 5

WARRANTY

We deliver a plug and play assembly, fully tested, ready to go, and backed by the Swagelok Limited Lifetime Warranty.

STEP 4

BUILD

Our certified technicians will assemble your Custom Solution pulling from Swagelok's 9,000+ components as well as source any 3rd party items that may be required.
