

PRESSURE IS MAINTAINING
SYSTEM HEALTH.

PRESSURE IS RUNNING
YOUR PLANT **SHORT-HANDED.**

ARE YOU UNDER PRESSURE AT WORK?

Pressure to get things done. Pressure to improve processes.
Pressure to ensure your systems are safe. Pressure to make
sure your workforce are trained to do their jobs.

THEN SWAGELOK CAN HELP.

PRESSURE IS REPLACING
HALF YOUR **BRAINPOWER.**

PRESSURE IS KEEPING
YOUR PLANT **RUNNING SAFELY.**

KNOWLEDGE LOSS

Up to 50 percent of skilled workers could retire in the next 10 years. How do you bring new employees up to speed—fast? With our 70+ years of experience, we can help you build up your team's expertise. Swagelok has training on everything from fluid system basics to advanced subjects like sampling systems.

An upturn in production. Urgent customer demands. Shrinking budgets. Today, you are expected to do more with less. Swagelok is here to assist you. From custom fabrication and assembly, to product selection and vendor-managed inventory, our extensive fluid systems expertise can help your plant and your team operate more efficiently.

DOING MORE WITH LESS

SYSTEM HEALTH

Your reputation rests on the quality of your output, so inaccuracy or inefficiency in your fluid systems can have a huge impact. That's pressure—and a checkup from Swagelok can help. Our experienced field engineers diagnose issues in sampling systems and other fluid systems, and will work with you to resolve them.

Maintaining plant safety is critical to your operations, especially when you consider that up to 42 percent of safety incidents are due to preventable errors. When it comes to the safety of your fluid system operations, Swagelok can support you. With hands-on assembly and installation training, as well as assistance with correct product selection, Swagelok helps your employees operate safely and confidently.

SAFETY

ENGINEERED TO PERFORM UNDER PRESSURE.
