Advanced Tube Bending

Advanced Tube Bending — 1.5 Day Course

Accurate, reliable tube bending depends on your ability to navigate the variables inherent to different bending applications. True tube bending skill lies in the operator's confidence and knowledge. Learn multiple methods of tube bending from certified trainers at Swagelok NYC | NJ | Philadelphia.

About the Course

This training program aims to equip trainees with the skills to handle complex tube installations, focusing on:

- Complex interference
- Changes in plane
- Avoiding obstacles
- Difficult angles
- Parallel runs
- Offsets and rolled offsets

Course Length

This **highly practical 1.5 day course** utilizes 1/4", 3/8" and 1/2" hand tube benders and follows the measure-bend approach to tube bending. The final half day is dedicated to the instruction on the correct operation and use of the Swagelok Bench Top Tube Bender.

Target Audience

Installers, technicians, maintenance, and engineering personnel seeking to gain valuable knowledge and experience in the theory and practice of tube bending.

Certification

Successful attendees will receive a Swagelok® Certificate of Completion which is valid for three years.

Pre-requisites

1-Day Swagelok Tube Bending Essentials course.
