

# Swagelok® Installation Essentials Training

Ensure system integrity and minimize leakage risks.

## Register for our upcoming class

Swagelok NYC | NJ | Philadelphia's full-day course conducted by our Swagelok-certified Training team teaches attendees foundational fitting knowledge that will minimize risk of leakage and ensure their systems' integrity. This course is designed for those involved in the installation, design, and/or fabrication of fluid systems.

## Enroll in this course to learn:

- Tube fitting design and function and how fitting design changes have impacted seal performance
- Installation and assembly instructions designed to assure leak-free operation
- The importance of proper selection, care, handling, and prep of tubing and pipe
- Thread I.D. of: ISO, SAE, NPT, and Metric Threads, conversion fittings exercises of thread gauges & calipers

## Hands-on Exercises

Practice experience with fitting installation, tube cutting, deburring, and bending to improve system performance, enhance aesthetics, increase productivity and reduce waste.

## Training Exam

Each attendee will complete the Exam and receive a Certificate of Completion.

## Reserve your seat today
