

Minimize Your System Pressures.

Maximize Your Site Productivity and Profitability.

Swagelok Pittsburgh | Tri-State Area delivers premium-quality, leak-tight tube fittings, valves, gauges, hoses, tubing, and other fluid-handling componentry – at a 99%+ accuracy and on-time rate. We relentlessly strive to always get you just what you need – right when and where you need it.

To help relieve even your most severe cost, time, and risk challenges, we also offer a powerful portfolio of value-added **Strategic Support Services**, including masterful Custom Design & Assembly capabilities, unparalleled Safety Training, pristinely maintained Tool Rentals, ultra-reliable Supply Chain/Vendor-Managed Inventory assistance, and expert System Advisories and Evaluations.

HOW DO YOU REPLACE THE KNOWLEDGE OF YOUR RETIRING WORKERS – AND GET YOUR NEW HIRES RAPIDLY UP TO SPEED?

Our *Swagelok Tube Fitting Installation/Inspection & Tube Bending Safety Essentials* course ensures that graduates know how to properly pull up a tube fitting and bend tubing of various materials and diameters. Students leave with two Swagelok Certificates of Completion for just one day of training! We provide all class materials – and can even bring our instruction right to your facility or jobsite.

Also available from Swagelok Company:

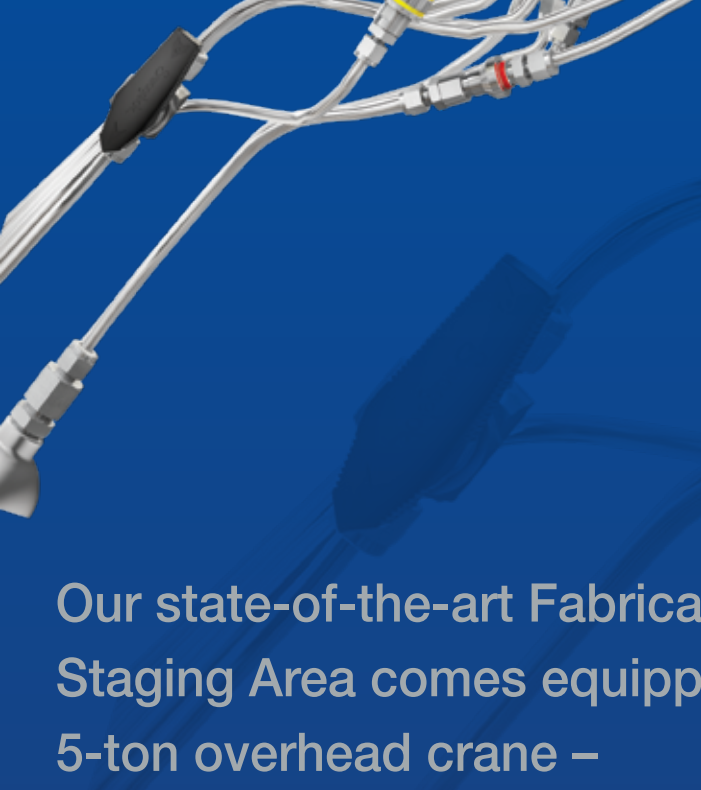

Process Analyzer Sampling Systems, Process Analyzer Sampling Systems – Subsystems, and Sample System Problem-Solving & Maintenance multi-day courses that will teach participants how to recognize and eliminate critical issues that compromise sample and analyzer systems.

Other Swagelok class titles:

Valve Essentials, Hose Essentials, Materials Science, Orbital Welding, and Advanced Tube Bending

HOW DO YOU CONSTANTLY BALANCE RESOURCES TO MEET THE EVER-DEMANDING NEEDS OF YOUR BUSINESS?

Our state-of-the-art Fabrication and Staging Area comes equipped with a 5-ton overhead crane – with a climate-controlled environment and dedicated orbital welding, bending, swaging, coiling, and kitting/packaging stations. In addition, we provide complete testing, inspection, and cleaning capacities. We're your first choice for simple assemblies to large, complex instrumentation panels. Plus, we now specialize in Gas Distribution, Grab Sampling, and Seal Support systems.

HOW DO YOU OPTIMIZE YOUR OVERALL SYSTEM HEALTH AND SAFETY?

Contact us to arrange a comprehensive audit of your current industrial hose usage, grab sampling practices, or general fluid-system connections. We will bring the expert onsite knowledge and advice to help you make your processes safer and optimal, no matter how extreme your operating conditions. Our report won't simply list your problems by location and severity, but will also contain proven and trusted recommendations as well.

You have questions about how your workers, equipment, and systems can better perform. We have solutions to help.
