

Enroll your Maintenance Technicians –

new hires or experienced personnel interested in a refresher course – in our all-day Swagelok Fitting Installation & Tube Bending Safety class. No student leaves without fully knowing how to safely and properly pull up a tube fitting and bend tubing of various materials and diameters.

Each graduate receives TWO genuine Swagelok Certificates of Completion for just one day of comprehensive, hands-on training. We provide all class necessities, including componentry, hand benders, manuals, gap-inspection tools, and several valuable take-home items. Participants simply need to show up at the assigned place and time.

Best of all, we can come to your facility or project site to conduct our instruction!

We also offer:

- Swagelok Tube Fitting Inspection Essentials (half day)
- Swagelok Hose Essentials (half day)
- Swagelok Valve Essentials (half day)
- Swagelok Advanced Tube Bending (3.5 days)
- Swagelok Process Analyzer Sampling Systems (5 days)
- Swagelok Sampling System Maintenance (2 days)

All Swagelok classes count toward Continuing Education credits and are eligible for state reimbursement in PA and OH.
