

Extra Value

to Help Relieve Your System Pressures

We've significantly upgraded our renowned *Swagelok® Tube Fitting Installation & Tube Bending Safety Essentials* course to include

Tube Fitting Installation INSPECTION content!

Now, in addition to students mastering how to safely and properly pull up a tube fitting and bend tubing of different materials and diameters, they'll also learn how to:

- **Inspect** an actual fluid-system installation
- **Identify** correct Swagelok tube fitting and system component installation and placement
- **Identify** correct tubing types, placement, and support
- **Inspect** tubing for proper, defect-free bends

Our newly enhanced class is specially designed for **Inspectors, Installers, Technicians, Contractors, Engineers, and Quality Assurance Personnel...** veterans to those new to your maintenance operations.

Make certain that the valuable Swagelok componentry you've purchased has been safely and properly installed **AND** is delivering optimum performance!

EXPERTISE

Meet your instructor:

MIKE GAGEL,

a 21-year Swagelok Company veteran, our Strategic Services Specialist, and certified tube-bending master.
