

## Our Fab Shop: *YOUR* Panel Shop

Swagelok Pittsburgh | Tri-State Area

is your **Proven and Trusted** go-to for  
**expert Panel Design and Build service.**

### IF...

- You're short on overall manpower...
- Your instrumentation panel, enclosure, skid, or subassembly projects are taking too long, costing too much, or putting you at too great a risk...
- You lack the necessary machinery/equipment or specialized skills...
- Scrap, rework, high engineering costs, or other operational inefficiencies continually hamper your profitability...
- A premium, leak-tight, turnkey solution delivered as one part number makes financial and functional sense for you...

## WE CAN HELP

you realize a healthier Bottom Line!

Our **extra-set-of-hands**, always-safety-first Fabrication process and proficiency also includes comprehensive testing, inspection, and packaging services – with all such work covered by the Swagelok Limited Lifetime Warranty.

## DEPEND ON US

for standard or customized reliable, repeatable subassemblies to highly complex panels or enclosures, even those incorporating wiring, automation, transmitters, relays, pumps...

*Some examples...*

### GRAB SAMPLING SYSTEMS

We offer an array of system configurations to meet the unique needs of your application. Our closed-loop solutions deliver pressurized samples into pressure-rated cylinders; our liquid systems enable you to collect process fluid into glass lab bottles for analysis.

### MECHANICAL SEAL SUPPORT SYSTEMS

Our kits and assemblies are available in a variety of API plan configurations – each built to exacting API 682 standards with greatly minimized connections and pipe threads to avoid dangerous/costly leakage.

### GAS DISTRIBUTION SYSTEMS

Get gases from a high-pressure source to where they need to go at your application's specified flow and pressure rate. Ask about our four panel types: Swagelok Source Inlet, Swagelok Gas, Swagelok Changeover, and Swagelok Point-of-Use.

### PLUS...

- Instrumentation Pigtails for Gas Pipelines
- Manifolding for Multiple Gas Cylinders
- Regulator Changeover Manifolds
- Purge Panels
- ...and so much more!
