

## A New Year's Resolution to Keep (You Safer and More Productive)

### Enroll in our one-day **Swagelok Safety Essentials class**

and learn expert fluid-system assembly!

- How to safely and properly pull up and place a tube fitting
- How to know if a tube fitting has been ideally installed
- How to bend tubing of various materials and diameters
- How to cut and debur tubing
- How to reassemble a tube fitting
- How to identify basic thread types
- How to identify correct tubing types, routing, and supports
- How to spot tubing defects

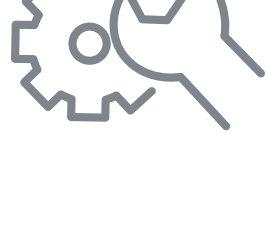

## BOTTOM LINE:

You'll master how to reduce overall system connections – thus reducing overall media leakage damage, dangers, and costs!

## SAFETY

All Swagelok training classes are focused first (last and always) on the proven best practices to negate worker injuries and/or equipment damage.

## APPLICABILITY

Our instruction is primarily hands-on to replicate challenges you're likely to encounter at your facility or in the field.

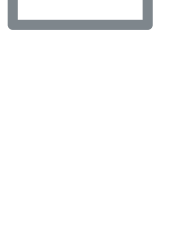

## ABILITY

Mike Gagel, your instructor, helped author most of the current global Swagelok training content. He's also Swagelok Company's Advanced Tube Bending Trainer.

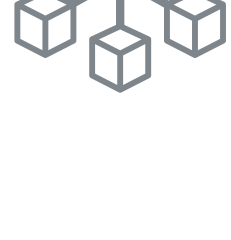

## MOBILITY

We can bring our instruction directly to your site or project location.

## FLEXIBILITY

We'll do all we can to accommodate your training timeframe and event convenience, including multiple visits to the learning venue.

## VARIETY

In addition to our most-requested Install/Inspect & Tube Bending class, we offer: *Valve Essentials*, *Hose Essentials*, *Advanced Tube Bending*, *Orbital Welding*, *Steam Basics*, *Sampling System Maintenance*, *Process Analyzer Sampling Systems*, and more titles.
