

Premier Products for Proven Performance —
under the most **EXTREME**
Fluid-System **PRESSURES**

Swagelok Componentry provides inherently safe, ultra-reliable, and leak-tight results, no matter how challenging your 2" and under applications. For 75 years and counting, we have designed, developed, and delivered the industry's most trusted and expansive brand of Tube Fittings, Valves, Gauges, and other fluid-handling solutions.

Always Available *LOCALLY* from
Swagelok Pittsburgh | Tri-State Area

Tube Fittings

Count on reliable, leak-tight performance as a result of our proven design, manufacturing excellence, and superior raw materials.

High-Purity Fittings

Ensure cleanliness with electropolished and specially cleaned fittings that feature controlled surface finishes.

Process Valves & Manifolds

Create a smooth transition from the process piping system to instrumentation in a single configuration, with fewer potential leak points.

Instrumentation Valves

Depend on leak-tight performance for years of use — even in the most demanding applications.

Packless Valves

Eliminate packing replacement and enhance clean operation with all metal seals to atmosphere.

Medium- and High-Pressure Fittings, Tubing, Valves, and Accessories

Benefit from leak-tight gas seal and vibration resistance—even in high-risk, high-vibration environments.

Regulators

Ensure consistent delivery of the right pressure across a variety of applications, with a wide range of regulator technologies.

Hose and Flexible Tubing

Keep your process performing safely with reliable, leak-tight connection technology, coupled with a wide variety of hoses for almost any application.

Tubing and Tools

Choose dependable tubing in a wide variety of materials for virtually any industry or application. Tools for cutting, bending, and deburring tubing for repeatable results and leak-tight performance.

Measurement Devices

Obtain accurate, on-demand pressure, temperature, and flow measurement readings.

Quick-Connects

Enable quick, simple operation without twisting, turning, or wrenching.

Sample Cylinders

Protect product integrity during transport with cylinders featuring consistent wall thickness, smooth internal neck transitions for easy cleaning, and heavy-wall connections that resist flaring.

Filters

Remove liquid or particulate contaminants reliably with repeatable results.
