

Uniquely **US**

Making claims is easy.

Substantiating them is not.

In the local Fluid-System/Industrial Distributor category, Swagelok Pittsburgh | Tri-State Area stands alone by 3 basic truths:

1 For 75 years and counting, Swagelok componentry has delivered unmatched **GLOBAL** safety and performance in even the most severe applications and operating conditions.

Our renowned, leak-tight, two-ferrule tube fittings, valves, gauges, hoses, tubing, and accessories, time after time after time, provide unsurpassed productivity and efficiency in the **Oil & Gas, Chemical, Refining, Steel, Power, and Applied Research industries.**

No matter the variety and vastness of your operational pressures – knowledge drain, diminished resources, system inefficiencies, safety concerns – Swagelok is the one brand proven to provide you the reliability, durability, and sense of security to maximize profitability.

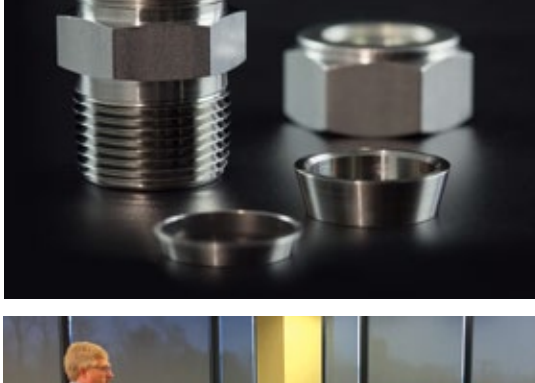

2 Our always-available **LOCAL** inventory means we always have just what you need – right when and where you need it.

We stock more than 3,000 SKUs at all times, backed by our packing and shipping accuracy of nearly 100%.

We also offer a powerful portfolio of trusted Strategic Support

Services: We can masterfully custom design and build large complex skids and panels to simple assemblies; Our **Safety Training** classes teach your techs how to properly install and maintain your systems; and our **Hose Advisories** and **Media Leakage Evaluations** will keep you running safely and effectively.

3 Our technical **APPLICATION EXPERTISE & SUPPORT** enables us to help you make the optimal product choices per job – so that you get more done on-time, on-plan, and on-budget.

Gary Osman, our certified Swagelok Field Engineer, in conjunction with our external and internal sales reps, will work closely with you every step of your project to identify and procure the ideal Swagelok components and/or assemblies required to exceed your expectations – no matter how formidable your task or timeframe.

In all ways – we are always right here for you.
