SUPPORT

Swagelok Pittsburgh | Tri-State Area, your local and proven Swagelok Fluid-Systems Resource since 1965, delivers to the letter for you.

THINK

In everything we do, **SAFETY** is of the utmost importance. For 75 years and counting, our primary focus has been to design, develop, manufacture, and supply premium-quality, leak-tight products that you can trust to keep your workers and valuable assets safe, even in the most challenging Oil and Gas, Chemical, Refining, Power, Steel, and Applied Research applications and operating conditions.

SWAGELOK

tube fittings, valves, gauges, hoses, tubing, and accessories are indeed your innovative **SOLUTIONS** for ultra-reliable, repeatable fluid-system performance. But, we also offer a powerful portfolio of value-added Strategic Support **SERVICES** that can help you ease your ever-expanding functional pressures – thus saving you time, money, and excessive risk. **For example:**

Masterful Custom Fabrication

- Expert Design and Build Capabilities
- Simple to Large, Complex Assemblies

Comprehensive Safety Training

- Installation & Bending
- Advanced Tube Bending
- Valve & Hose Essentials
- At Your Facility or Project Site

Trusted System Advisories

- Media Leakage/Energy Loss
- Industrial Hose

Always-Available Tool Rentals

- Multi-Head Hydraulic Swaging Units
- Benchtop and Electric Tube Benders
- Orbital Welders

IN ADDITION,

we provide off-the-shelf standard or specially customized **SYSTEMS** that will significantly improve your overall productivity, efficiency, and profitability:

GRAB SAMPLING SYSTEMS

We offer an array of system configurations to meet the unique needs of your application. Our closed-loop solutions deliver pressurized samples into pressure-rated cylinders; our liquid systems enable you to collect process fluid into glass lab bottles for analysis.

MECHANICAL SEAL SUPPORT SYSTEMS

Our kits and assemblies are available in a variety of API plan configurations – each built to exacting API 682 standards with greatly minimized connections and pipe threads to avoid dangerous/costly leakage.

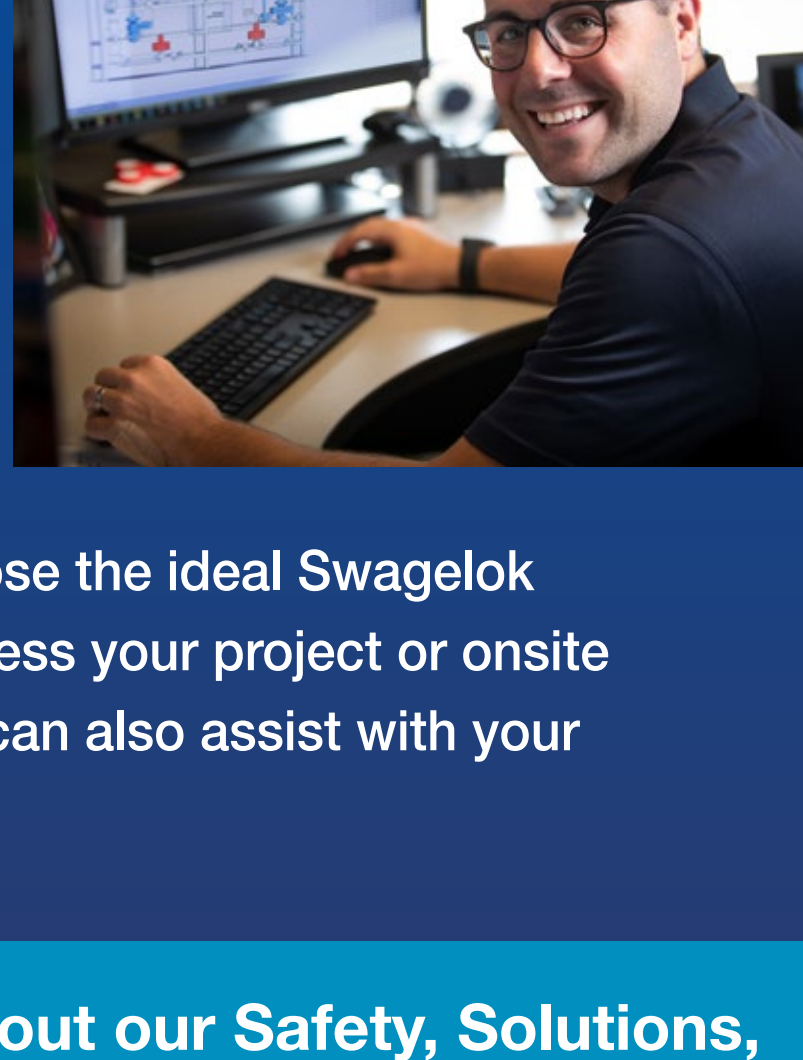

GAS DISTRIBUTION SYSTEMS

Get gases from a high-pressure source to where they need to go at your application's specified flow and pressure rate. Ask about our four panel types: Swagelok Source Inlet, Swagelok Gas, Swagelok Changeover, and Swagelok Point-of-Use.

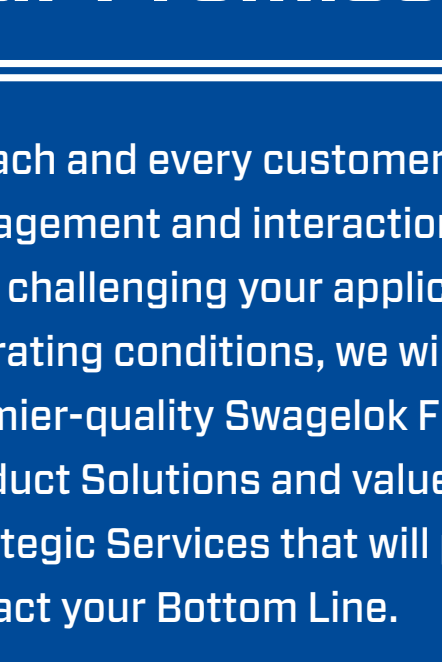

PLUS,

all our componentry and supplemental performance-boosters are backed by the industry-renowned Swagelok Limited Lifetime Warranty. Our technical **SUPPORT** includes expert advice on how to find and/or choose the ideal Swagelok products and tools to address your project or onsite requirements as well. We can also assist with your P&ID and CAD needs.
