## Ready for Your *Inspection (Training)?*

Our **Swagelok Tube Fitting Installation & Inspection Safety Essentials** class delivers **TWICE** the timely and relevant learning content for just a single one-day investment!

UPON GRADUATION,  
you will be able to confidently:

**1 Identify a correct tube system placement**

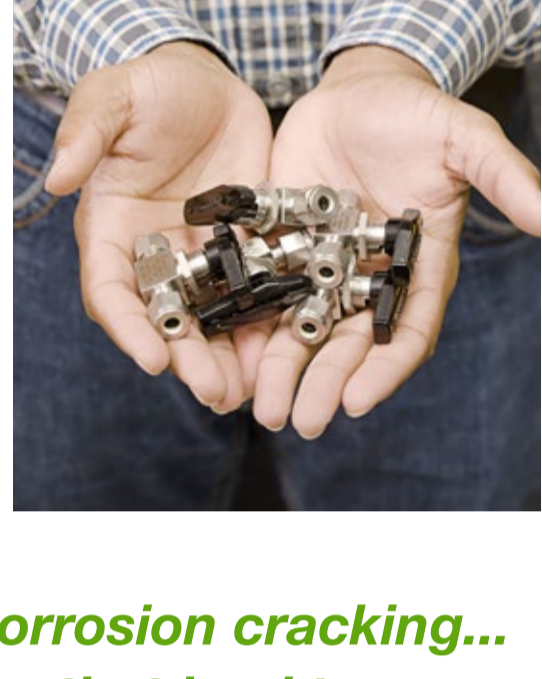

**2 Install tube fittings safely and properly**

In addition, you will learn how to apply proven Swagelok and critical industry criteria to conduct a detailed inspection of your current tube fitting and pipe thread installations – with and without disassembly.

**Plus, during your eight-hour day, we will extensively cover how to:**

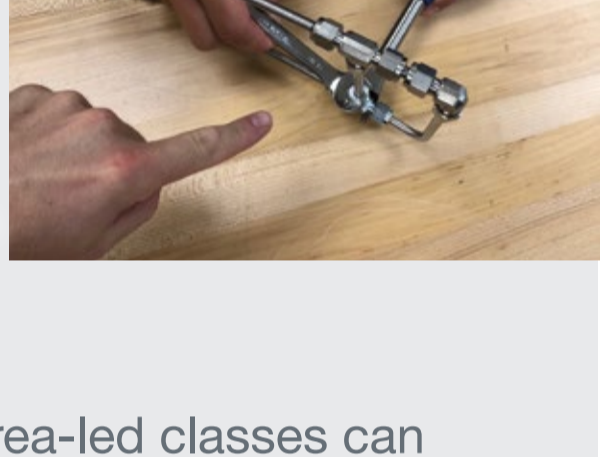

- Cut and debur tubing of various materials
- Identify basic thread types
- Identify mixed-component fittings
- Identify correct tubing types, routes, and supports
- Inspect tubing for defect-free bends
- Reduce overall system connections and leakage

**Conquer fatigue, blowouts, stress corrosion cracking... and other common installation errors that lead to unsafe operating conditions and tube fitting failure!**

## OUR COURSE IS HANDS-ON...

including **inspection of a pre-built loop assembly** with 17 total connections. You will be tasked to review, detail, and document all non-conformances on such – within a designated time.

**And, always remember:**

- All Swagelok Pittsburgh | Tri-State Area-led classes can be conducted at your facility or jobsite
- We can start/stop at your hours of convenience
- We can spread your instruction over multiple sessions
- We supply ALL training materials; all you have to do is to show up on time!
