

The Brand. The Inventory. The Expertise.

For more than 75 years, **Swagelok componentry and support services** have helped make global and local fluid systems inherently safer, substantially more productive, and ultra-efficient.

See For Yourself...

...how our corporate **Manufacturing** processes, procedures, and personnel constantly ensure that the premium products we sell deliver an exceptional return on your every investment with us:

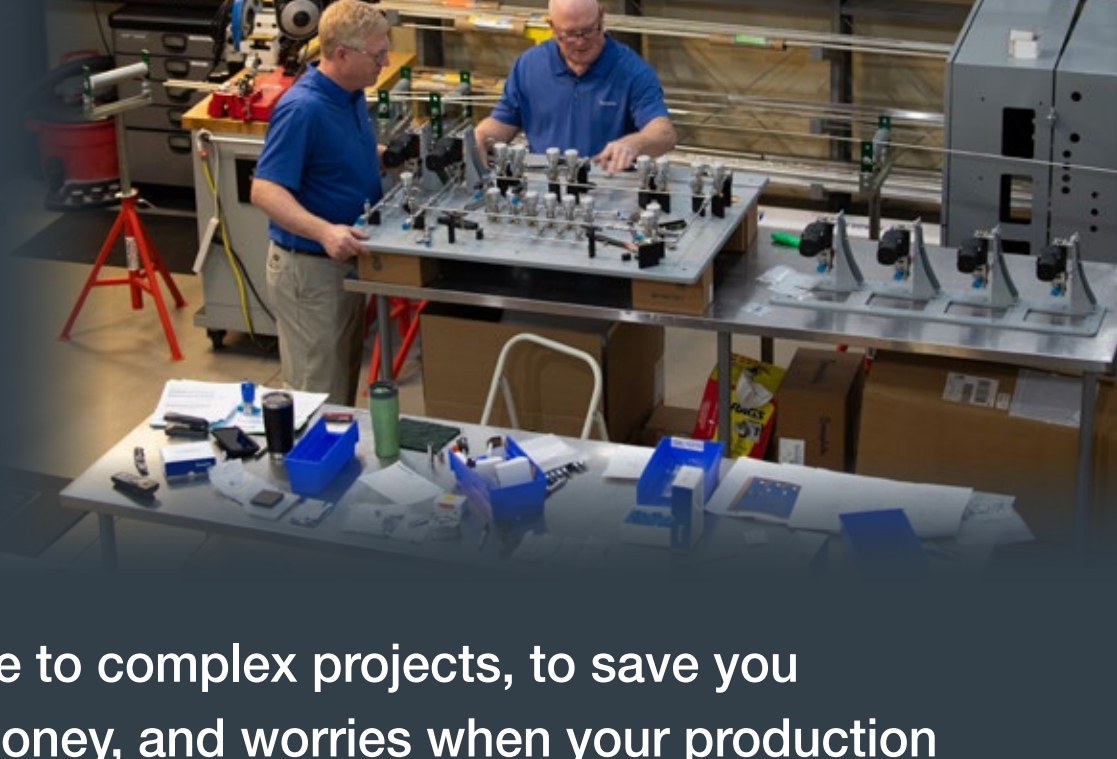

Also know...

...that we always have 3,000+ Swagelok SKUs stocked at all times in our **Pittsburgh Warehouse** – ready for your immediate onsite pickups or for fast shipments, at virtually 100% accuracy, to your facility or worksite. Your local fulfillment staff employs our leading-edge carousel system to deliver just what you need, right when and where you need it: tube fittings, tubing, valves, gauges, hoses, and accessories.

Plus...

...our state-of-the-art **Fabrication Center** offers the expert Design and Build capabilities, simple to complex projects, to save you significant time, money, and worries when your production schedules get tight – while reducing your overall engineering, scrap, rework, and administrative costs. We specialize in leak-tight, easy-to-install **panels and sub-assemblies** that are thoroughly tested, professionally packaged, conveniently shipped as one part number, and fully backed by the renowned Swagelok Limited Lifetime Warranty.

Recently, we expanded our panel offerings to include multiple Grab Sampling, Gas Distribution, and Mechanical Seal Support system options. Our certified Swagelok Field Engineer and Sales Reps will work closely with you to take your initial idea to a reliable custom-fabricated solution to your exact specifications and requirements. If necessary, we can even provide CAD and P&ID assistance!

Lastly...

...for improved workplace safety and performance, consider our suite of proven hands-on **Training** course titles, basics to next level, for veterans or new hires, at your place or at our Training Center:

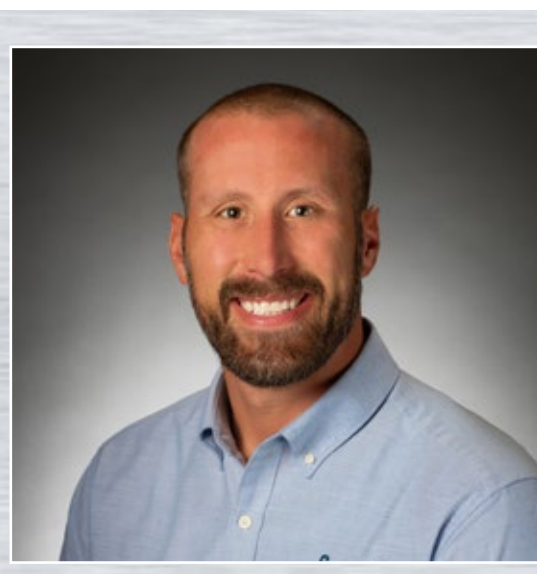

- *Tube Fitting Installation & Tube Bending Essentials*
- *Valve Selection and Maintenance*
- *Hose Selection and Maintenance*
- *Advanced Tube Bending*
- *Orbital Welding*
- *Process Analyzer Sampling Systems*
