

One Word Says It All

In multiple ways, **Swagelok Pittsburgh | Tri-State Area** can help keep you safer, leaner, more productive, and more profitable.

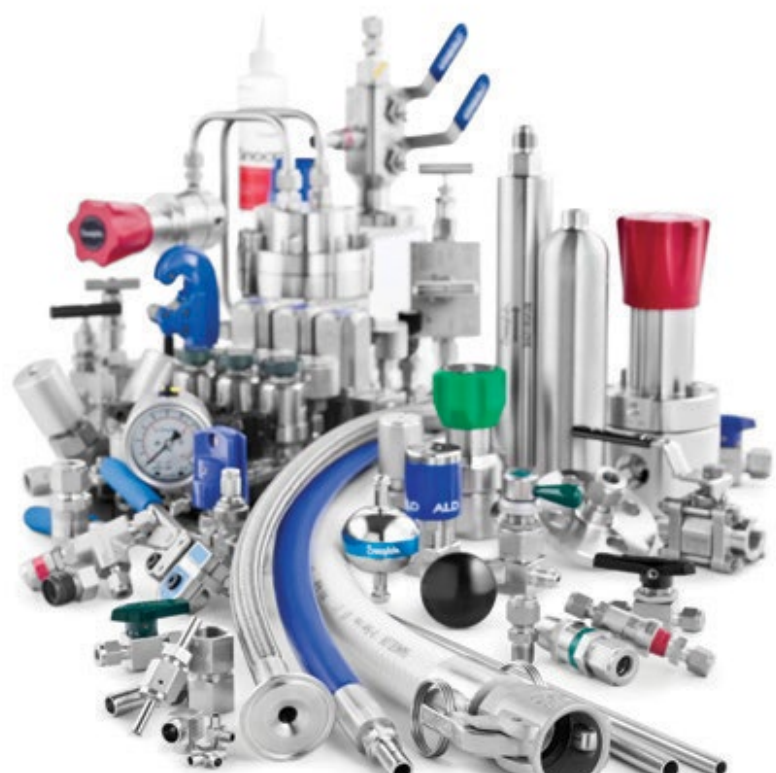

But a single term truly enables us to deliver on that promise:

 **Quality!**

Our leak-tight, high-performance Products...

...are made from premium materials and stringent design and manufacturing processes that yield safe, superior results in even the most challenging applications and operating conditions – in every industry we service.

- Tube Fittings
- Valves
- Gauges
- Hoses
- Regulators
- Tubing
- Sub-Assemblies
- Instrumentation Panels

In fact, we forge, machine, electropolish, weld, assemble, and test – all in our facilities.

We even use a truly unique 316 stainless steel – from its tightly controlled chemistry through the inspection steps employed to validate it – that no one else can purchase.

Plus, raw material traceability is integral to Swagelok's overall quality system throughout ALL phases of material receipt, manufacturing, processing, storage, and delivery.

At Swagelok Pittsburgh | Tri-State Area,

we apply the strict Swagelok Quality System to our quoting, order entry, shipping/receiving, internal training, fabrication, and multiple other day-to-day operations, all frequently measured, monitored, and improved upon as we continually seek to achieve organization excellence and provide you the ultimate customer experience.

In all we say and do, **our People, our Products, our Processes/Procedures,** we are your local, proven, and trusted fluid-system resource to safely and substantially increase productivity and profitability.
