

**Reliable.
Repeatable.
Responsible.**

Swagelok

Swagelok premium-quality, leak-tight Componentry delivers optimum safety, performance, and profitability, time after time after time – in even the most challenging applications and operating conditions.

Our Trusted and Proven...

...fittings, valves, gauges, hoses, tubing, manifolds, regulators, custom-designed-and-built assemblies, and related offerings are easy to install and maintain... to keep your equipment running safely, efficiently, and cost-effectively, no matter your industry or project.

Our products help you control

direct, harmful emissions

to ensure your safety, while

enabling you to satisfy your

regulatory requirements

and achieve your crucial

sustainability goals.

Swagelok Company maintains strict policies, procedures, and leadership oversight to promote ethical conduct, complete compliance with laws and regulations, and highly effective risk management.

We also closely monitor the labor practices, human rights policies, integrity, and environmental stewardship of each-and-every Swagelok supplier.

That's why the
SWAGELOK BRAND
is simply unparalleled for
fluid-system optimization
– in our greater Pittsburgh
service region and around
the world.

**Call 412.761.3212
or text 412.439.1706 today**

to learn more about:

Fittings

For unparalleled leak-tight connections between fluid-system componentry since 1947

Valves

Reliably control flow across a broad range of working pressures, temperatures, and operating conditions

Regulators

Consistently and accurately maintain pressure levels over extended operating lifespans

Hoses

Available in a vast array of materials, pressure ratings, and flexibility degrees

Assemblies

Designed, built, and tested by Swagelok-certified engineers and technicians

Safety Training

- **Fitting Installation & Tube Bending, Advanced Tube Bending, Valve Essentials, Hose Essentials**
- Each title available at your location or our leading-edge Pittsburgh Training Center
- We supply all training materials, even lunch
- We can also facilitate your participation in Swagelok-conducted classes: **Process Analyzer Sampling Systems, Steam Essentials, Orbital Welding, Advanced Materials**
- We can start/stop at your hours of convenience

Custom Fabrication

- Sub-assemblies to large, complex panels and enclosures
- Specialties: Grab Sampling, Gas Distribution, Mechanical Seal Support
- All work warranted by Swagelok Company
- Dedicated bending, coiling, cutting, welding, testing, packaging stations
- Even P&ID and CAD support

System Evaluations

- Escorted walk-throughs of a pre-determined segment of your lines to determine media leakage by severity, safety risks, and profitability effects
- Audits of your industrial hose usage, routing, storage, and maintenance practices
- We don't just identify your problems, we make trusted and actionable recommendations

Tool Rentals

Always pristinely maintained and available: Manual Benchtop Tube Benders, Multi-Head Hydraulic Swaging Units, Orbital Welding Packages
