Put our team alongside yours

Swagelok Tube Fittings, Valves, Gauges, Hoses, Tubing, Regulators, and other critical components deliver unparalleled performance and efficiency in even the most challenging applications and operating conditions.

Our premium-quality, leak-tight products provide ultra-reliable, long-lasting service life on the most routine to the absolute toughest Oil and Gas, Chemical, Power Generation, Steel, Clean Energy, and Research and Development projects. Made of the finest raw materials and designed by our leading-edge Engineering teams, Swagelok componentry produces as promised time after time after time, keeping your workers safe and helping you maintain a healthy Bottom Line.

Swagelok Pittsburgh | Tri-State Area always has more than 3,000 SKUs in stock. We employ a state-of-the-art carousel picking system to ensure that we get you just what you need – right when and where you need it. We keep an extensive supply of pristine stainless steel tubing, in various diameters, to meet the ever-increasing demands of our sales area.

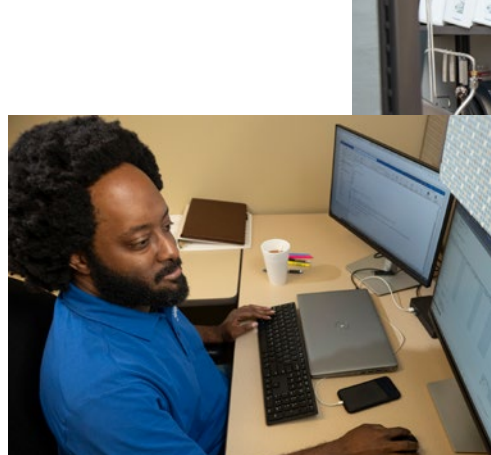

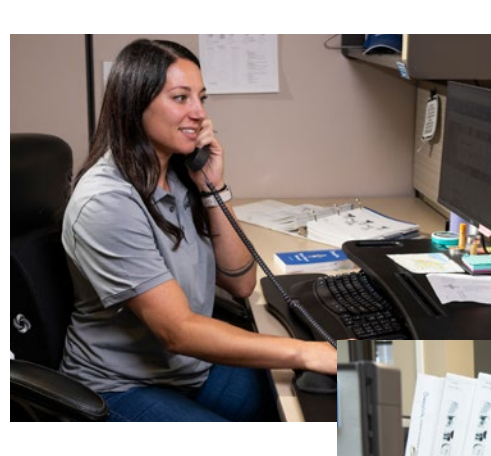

In addition to our plentiful tooling inventory, we also keep multiple pieces of well-maintained equipment for you to rent – by the day, week, month, or entire length of project:

Multi-Head Swaging Units, for 1" and higher or 1" and lower under work; Manual Benchtop Benders for higher-diameter tube bending; and Orbital Welding Packages, including power supplies, heads, facing tools, and all key accessories.

Why buy when your need is short-term or infrequent?

Best of all, our Field and Internal Customer Service Representatives, backed by our Swagelok-certified Applications Engineer, are highly trained to assist you in selecting the ideal Swagelok components for your specific requirements. With just a few basic answers from you, we can expertly advise you just what you'll need to save major time, money, and worry, no matter what the job.
