

WHY WHY WHY

For almost **80 years**, the Swagelok brand of products and services has unquestionably stood for ultimate performance and profitability in even the most challenging fluid-system applications.

WHY Our Componentry

Swagelok leak-tight, premium-quality Tube Fittings, Valves, Gauges, Hoses, Regulators, Tubing, and other critical offerings deliver safe, ultra-reliable, exceptionally consistent results time after time after time... Our products are made of the finest raw materials – proven better by design – built to exacting tolerances under Swagelok's stringent Quality System – and fully backed by the Swagelok Limited Lifetime Warranty.

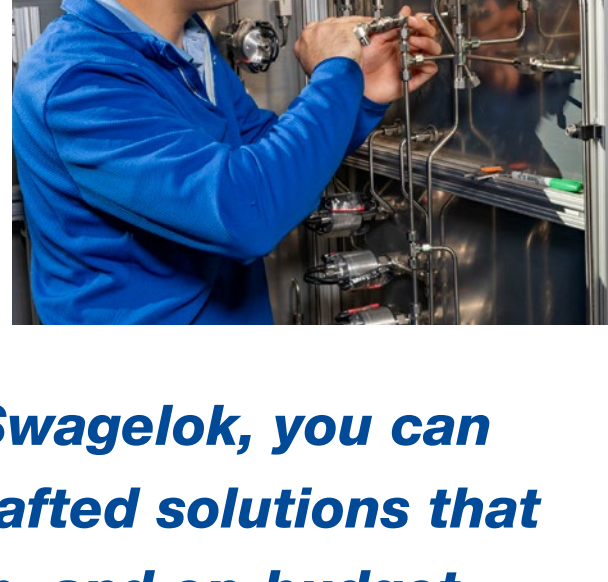

That's why when you purchase Swagelok, you can rest assured that you've made the ideal investment in worker safety and operational excellence.

WHY Our Assembly Services

We can help you immediately...

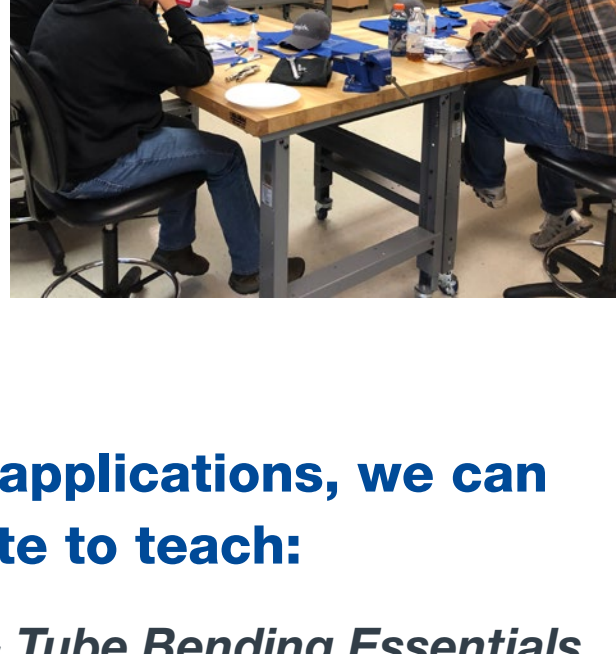

...if your current fabrication processes are taking too long, costing too much, creating too much waste, and/or placing you at significant risk – as we assist you in getting more out the door faster, safely, and economically. Our master technicians are Swagelok trained-and-certified in panel design, building, testing, and inspection – subassemblies to large, complex skids and enclosures. We also specialize in sizable tube bending, orbital welding, cylinder/hose maintenance programs, relief valve setting...even CAD and P&ID support.

That's why when you choose Swagelok, you can confidently count on expertly crafted solutions that will keep you on-time, on-plan, and on-budget.

WHY Our Safety Training

No matter which course title you require, our customer learning curriculums provide an unparalleled depth of timely and leading-edge content – supplemented by actual hands-on practice – to help you substantially reduce installation errors, costly maintenance labor and downtime, and, of course, total operating expenses.

All customizable to your specific applications, we can come to your facility or project site to teach:

- ***Tube Fitting Installation/Inspection & Tube Bending Essentials***
- ***Valve & Hose Essentials***
- ***Advanced Tube Bending***
- ***Sampling System Problem-Solving & Maintenance***
- ***Analyzer Technician Essentials***
- ***Orbital Welding***
- ***Process Analyzer Sampling Systems***
- ***Steam & Condensate Essentials***
- ***Materials Science***

We supply ALL class materials...plus, our courses come with a complete money-back guarantee and count toward Continuing Education credits.

That's why when you commit to Swagelok, you know we'll ensure that your engineers and maintenance personnel graduate fully understanding how to safely and correctly build and upkeep your valuable fluid systems.

THERE'S NO QUESTION:

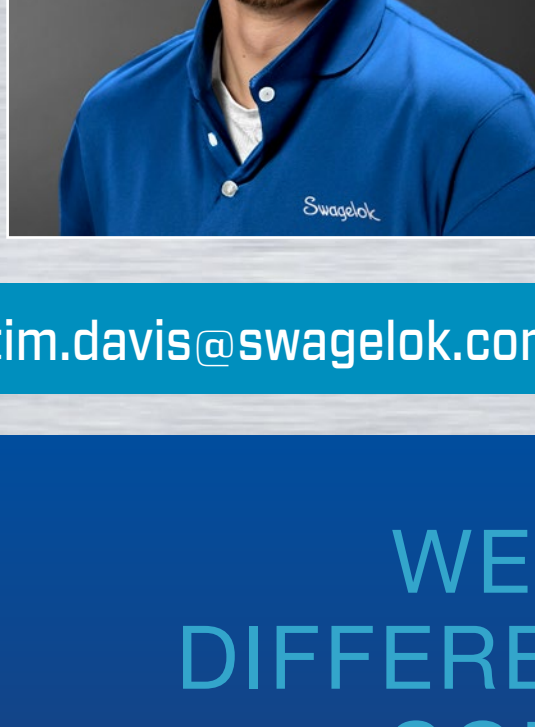

When you select Swagelok products and services, you will save time, money, and worry – no matter what your industry, application, or operating conditions.

Put our team alongside yours

For more information on the multiple ways and means Swagelok can make a genuine positive difference for your Bottom Line health, contact:
