

**RELY
ON US**

Most marketers make that claim – but, in all we do, we are passionately driven to be the **fluid-system resource you truly rely on**, no matter what your industry or application challenge or operating environment...

...For Premium-Quality LEAK-TIGHT PRODUCT PERFORMANCE

TUBE FITTINGS

- Ideal for high pressures areas, severe corrosive environments, or extreme temperature applications

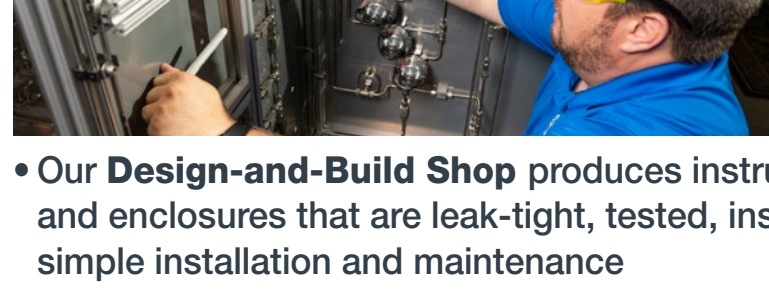

VALVES

- We offer a wide variety of Ball, Check, Needle, Metering, Relief, Plug, Bleed-and-Purge, Bellows-Sealed, and other Valves for superior durability and low maintenance

HOSES & FLEXIBLE TUBING

- Choose metal core, PTFE/PFA core, rubber core, and thermoplastic core options

...For Value-Added STRATEGIC SUPPORT SERVICES

CUSTOM FABRICATION

- Our **Design-and-Build Shop** produces instrumentation panels, sub-assemblies, skids, and enclosures that are leak-tight, tested, inspected, and professionally packaged for simple installation and maintenance

GRAB SAMPLING SYSTEMS

- Capture gas and liquid samples safely and efficiently for lab analysis
- Options for closed-loop sampling in pressure-rated cylinders or non-volatile fluids in glass bottles

MECHANICAL SEAL SUPPORT SYSTEMS

- We provide API plan systems built to the precise standards of API 682 for centrifugal and rotary pump sealing

GAS DISTRIBUTION SYSTEMS

- Ensure gases reach their destination with our standardized and custom solutions
- Modular panels protect operators, boost uptime, and improve process accuracy with intuitive labels and minimal threaded connections

HOSE ADVISORIES

- Our **Industrial Hose Advisories** will give you an accurate assessment of current sizing, routing, and storage practices and concerns, plus offer ideal going-forward suggestions on which type of hose to use for which applications

LEAK LOSS AUDITS

- Our **Energy-Loss Evaluations** provide you a comprehensive snapshot of faulty connections and dangerous leak points in your lines – with expert recommendations on how to quickly remedy the issues that are costing you the most time, money, and worry

SAFETY TRAINING

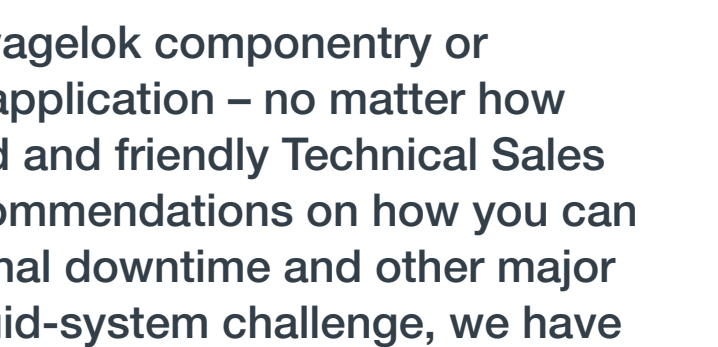

- Our **Customer Safety Training** programs ensure that your technicians – new hires to veterans – know how to safely and properly pull up tube fittings and bend tubing of various lengths and materials

TOOL RENTALS

Always meticulously maintained and available:

- Manual Benchtop Tube Benders
- Multi-Head Hydraulic Swaging Units
- Orbital Welding Packages

...For Field-Proven and Technician-Trusted TECHNICAL EXPERTISE

Let us help you choose the optimum Swagelok componentry or fabricated assembly for your particular application – no matter how complex or routine your job. Our trained and friendly Technical Sales and Support Team provides reliable recommendations on how you can confidently and quickly reduce operational downtime and other major system inefficiencies. Whatever your fluid-system challenge, we have the technical know-how and always-on-hand inventory to enable you to get more done safely: **on-time, on-plan, and on-budget!**

For Your Healthiest Bottom Line,

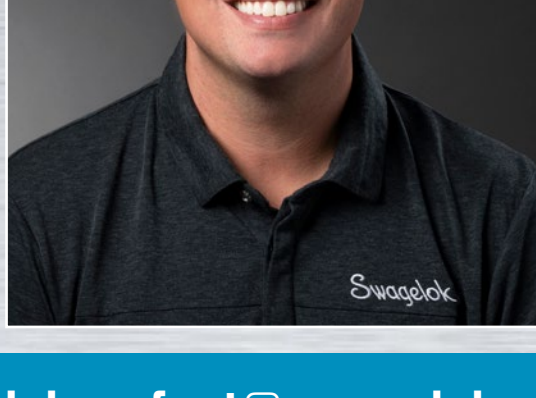

RELY ON US

to help make you **safer, more productive, more efficient, and more profitable!**
