

THE SWAGELOK ADVANTAGE

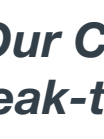

We understand your workplace realities.

We offer the premium-quality products and services for optimum leak-tight performance in even your toughest application challenges.

We are **YOUR** proven and trusted partner **READY** and **BUILT** to fully support you.

Our four foundational pillars:

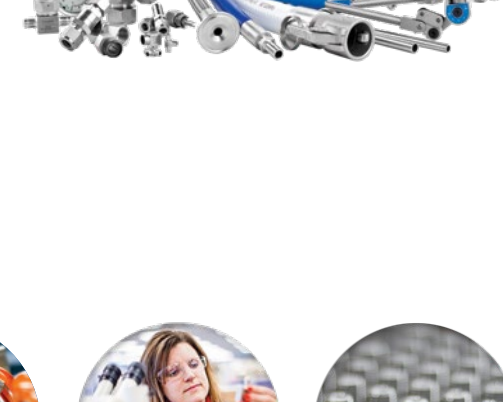

Uncompromising Product QUALITY:

Reliable Performance You Can Trust

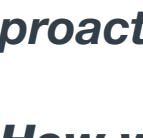

Our Componentry is designed and made for repeatable, leak-tight results in even the most demanding applications.

How we do it:

- Tightly controlled design, manufacturing, assembly, and testing
- Robust material standards, comprehensive testing, complete traceability
- Training that supports how our products are made, handled, and applied

Best-in-class defect rate averaging just 27 parts per million in our Fittings Group!

Dependable Product AVAILABILITY:

The Right Products Right When and Where You Need Them

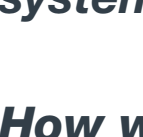

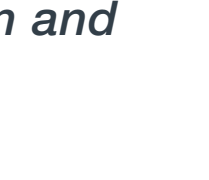

We provide massive inventories, shorter lead times, and proactive communication.

How we do it:

- Investment ahead of ever-increasing demand, expanded capacity/inventory
- A broad, configurable product basket for simple sourcing and standardization
- Exceptional coordination across manufacturing, supply chain, and our distributors

\$1.2 billion inventory within the worldwide Swagelok network!

Global STRENGTH / Local SUPPORT:

Rapid Responsiveness Right When and Where You Need Us

The full power of Swagelok Company drives Swagelok Pittsburgh | Tri-State Area as we address your systems, requirements, and timelines beyond your expectations.

How we do it:

- Consistent ultra-quality and standards everywhere Swagelok is used
- Totally coordinated and dedicated support after the sale
- Global manufacturing footprint, product development, and expert engineering capabilities
- Local accountability — initial contact through final delivery

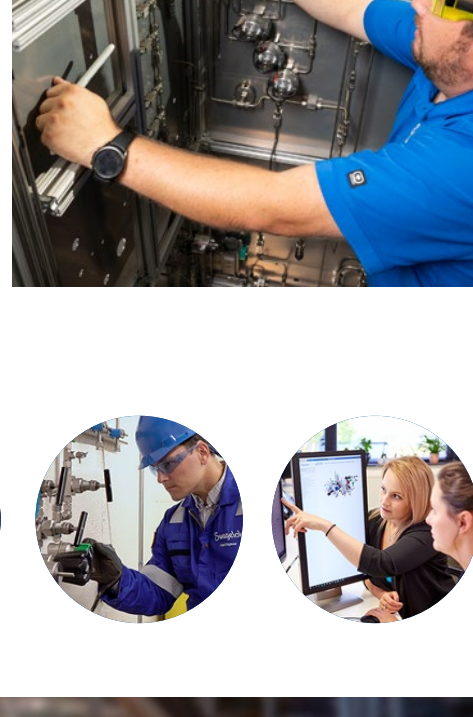

Technical Expertise and Problem Solving:

Trusted Answers for Your Toughest Challenges

Our unparalleled field-ready know-how helps you diagnose problems faster – for optimum and ever-expansive team/system performance.

How we do it:

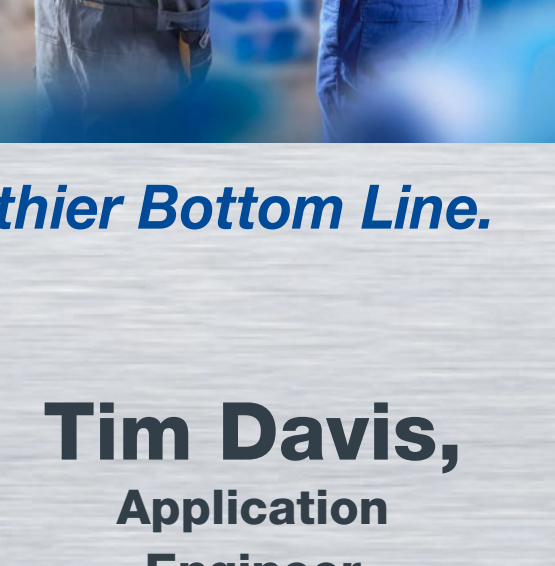

- A global Field Engineering Team of more than 450 professionals
- Customized, inspected, and tested Design & Build assemblies
- Expert fluid-system safety, assembly, installation, and maintenance training for more than 50,000 customers yearly
- Specialized guidance to evaluate and maximize your fluid systems

Our goal isn't to just identify your profit-draining issues; it's to help prevent them!

When your safety, productivity, and deadlines are at stake, we're your **ONE CALL to keep your fluid systems running – and your business moving.**

Let us help you realize a healthier Bottom Line.
