# GET BENT...

....and get rid of the excessive pump vibration and system leakage that destroys your **Rotating Equipment productivity and profitability!**

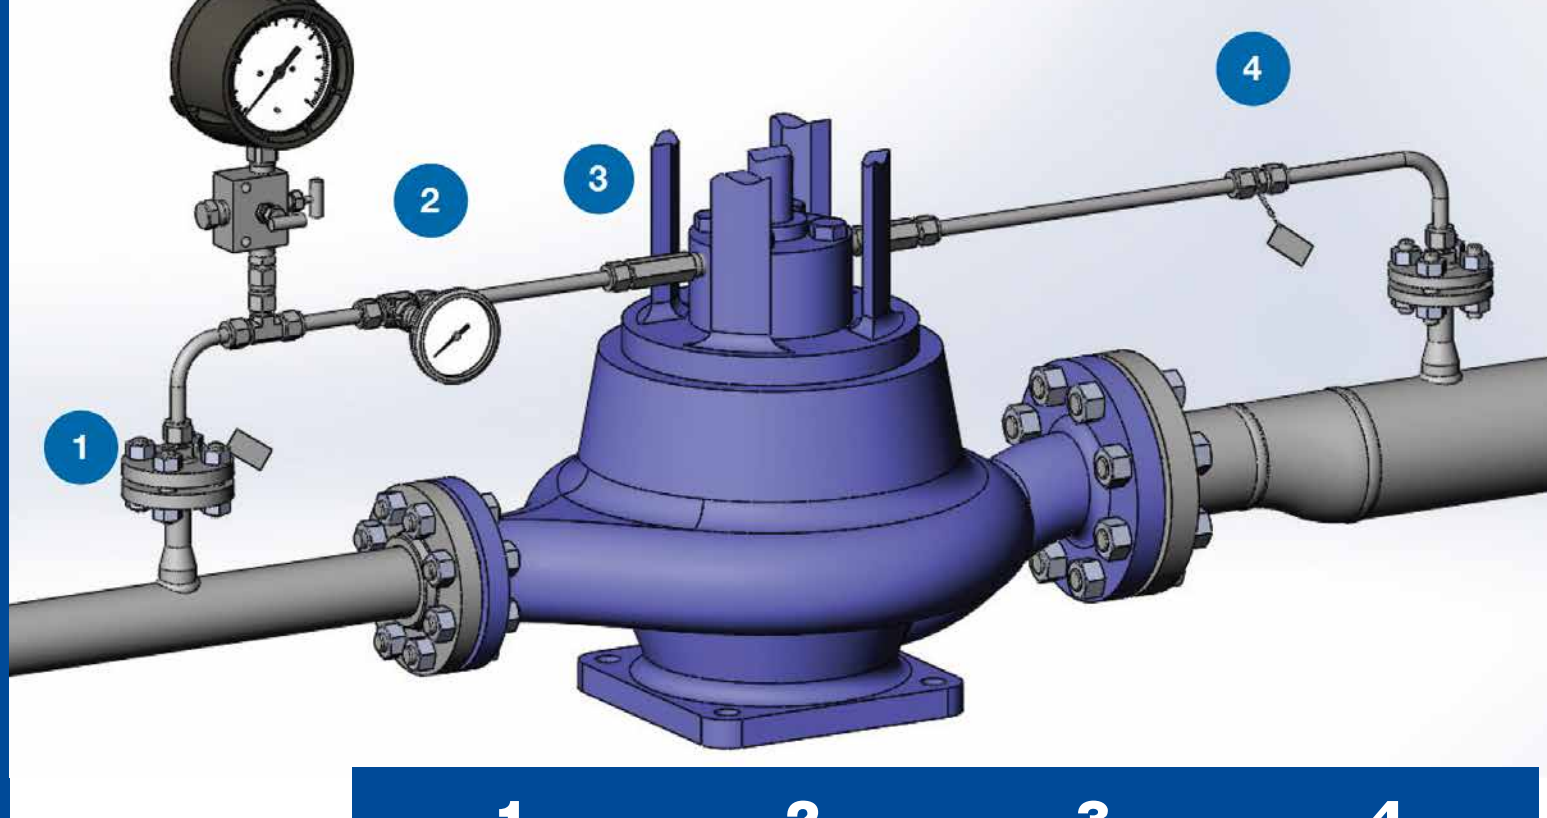

## Swagelok® Mechanical Seal Support API 682 Plan Kits,

which come packaged for easy field installation, incorporate **bent stainless steel tubing and 2" and under genuine Swagelok components** to replace traditional threaded and/or welded pipe connections to deliver ultimate reliability and performance with:

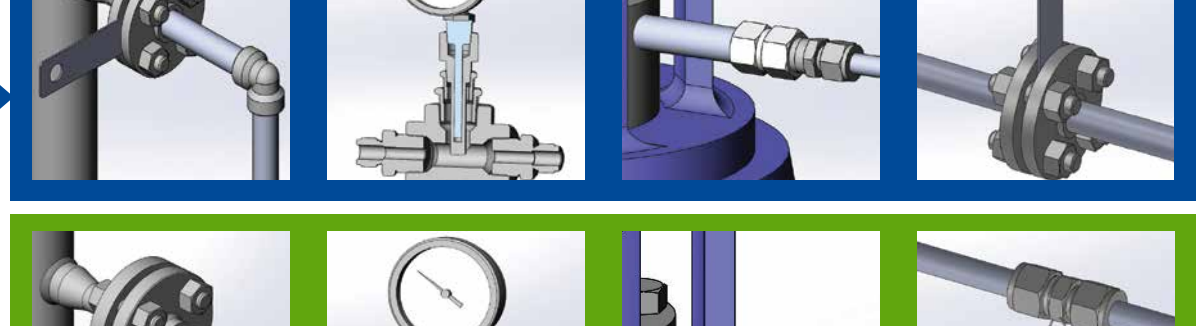

- Far fewer potential leak points
- Minimal maintenance frequency and labor requirements
- The full protection of the Swagelok Limited Lifetime Warranty

**Here's just one example:**

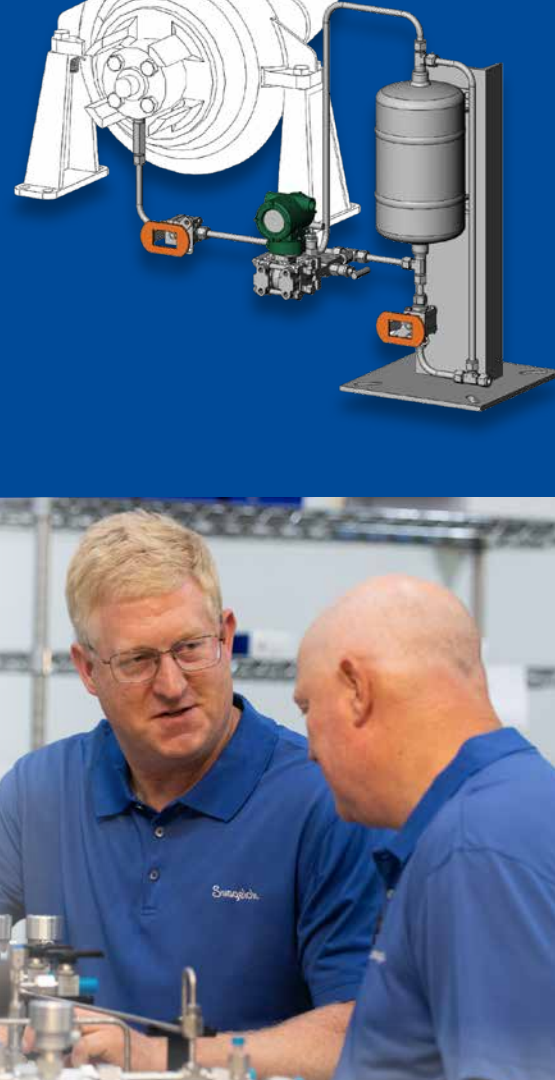

1	2	3	4
<b>Integral Orifice Flange Adapter</b>	<b>Thermowell Tee</b>	<b>Extended Male Connector</b>	<b>Orifice Union</b>

**Complete Swagelok component kits available for...**

Process Side Plans 11, 12, 13, 14, 21, 22, 23, 31, and 41

Atmospheric Side Plans 51, 62, 65A, and 65B

**LET US ALSO**

**HELP YOU**

get rid of other related

operational worries.

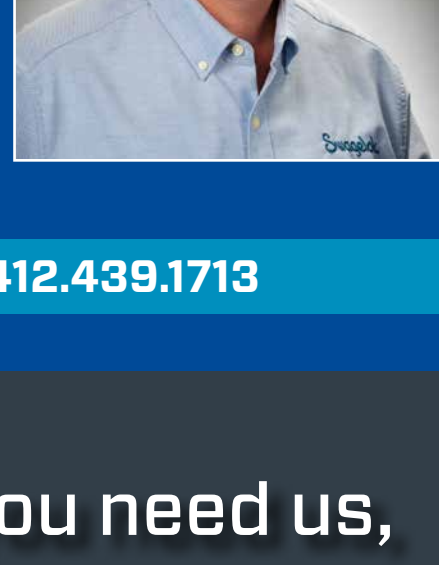

**WE CAN:**

- Fabricate and assemble API 682 systems with the Swagelok components that best suit your particular application
- Create CAD drawings and P&IDs
- Assist with your Orbital Welding, Tube Bending, Coiling, and other such needs
