Site Safety**MINIMIZING**Fugitive  
Emissions**MASTERING**Application  
Challenges**ATTENTION:**  
**Productivity Improvement Advisory!**

A half-day, comprehensive, and complementary Swagelok® Industrial Hose audit is your simple, proven, and cost-effective way to ensure that you've:

Safely and properly applied and routed your hoses on your large compressor skids and other rotating equipment...

Optimally reduced the effects of machine vibration to maximize hose service life, minimize downtime...

Ideally matched the best-performing Swagelok hose core and end connections to your specific applications: Well Heads, Compression, Custody Transfer, GC and Measurement, Processing, Cryogenic Service...

Correctly sized and stored your hoses for unparalleled efficiency and durability...

Significantly helped ease your overall fluid-system and operating pressures...
