*Helping **YOU** optimize your
fluid-system performance!*

Meet Jennifer Obed, our newest Customer Service Representative.

This University of Pittsburgh graduate has an exceptionally diverse employment background, including over 10 years in the mortgage industry and a wealth of IT-related experience. Before joining us, Jen was an author/editor for a local Curriculum company. She was the firm's Subject Matter Expert in English, too.

When not spending time with her husband, Bob, and 14-year-old daughter, Angelina, Jen enjoys reading, painting miniature figurines, and even attending video game conventions – in costume! In addition, she's worked on independent television/web shows and movies. She's also a tireless volunteer at local animal shelters and often assists non-profit arts organizations.

Don't be surprised if her voice sounds familiar when she answers your call.....she's recorded numerous on-hold messages and Pittsburgh-area radio spots!

Meet Dan Walko, our new Warehouse Associate.

Most recently, Dan held a similar role at Mine Safety Appliances in Murrysville. His duties there included inspecting and receiving goods using the company's SAP business system as well as kitting products for delivery. Prior to that, he was employed in the Receiving department at Nalco Water where, among many other responsibilities, he inspected stock items for defects. From 2007 through 2015, he held various Warehouse positions at Advance Controls & Distribution and Paper Products Company, respectively.

Dan also has an extensive FedEx and UPS background. He holds forklift certifications as well.

Born and bred in Pittsburgh, this die-hard Penguins fan is a 2004 graduate of Bishop Canevin Catholic High School. Dan, one of four children, and his girlfriend, Anna, are avid foodies – traveling all over the Tri-State Area in search of the latest culinary treats. Lastly, don't interrupt the couple when they're binge-watching "Designated Survivor" on Netflix!
