

Your Local Swagelok®

# TECHNICAL ADVANTAGE

## DELIVERING REAL SOLUTIONS

FOR YOUR REAL FLUID-SYSTEM PROBLEMS!

### Gary Osman,

who has served you as our Applications Engineer for the past 10 years, is now a fully certified **Swagelok Field Engineer**. After more than a year of extensive training and testing, Gary has acquired advanced practical knowledge and field-proven expertise in **Analytical Instrumentation, Process Instrumentation, Grab Sampling Systems, Mechanical Seal Support Systems, Energy Evaluations, and Hose Advisories**.

Gary, in coordination with his Field Engineering peers in the northeastern US and your usual Swagelok Account Manager, will provide trusted onsite application/project support, including troubleshooting, P&ID development, product selection, placement, and implementation, and safety/regulatory counsel. In addition, he'll continue to oversee our Custom Fabrication operations, helping you design and build top-quality sub-assemblies, assemblies, panels, enclosures, and skids to keep you safe, productive, efficient, and profitable.

This Pittsburgh-area native holds a BS degree in Civil Engineering from Penn State University. He's also been recently recognized as a Fluid Power Specialist by the International Fluid Power Society.
