

SYSTEMatic Optimization,

PART 1

Swagelok Grab Sampling System Panels, available in **15 standard design configurations** that can be quickly and expertly built for you by our Swagelok-certified Fabrication Center technicians, enable safe, efficient capture of liquid or gas samples from pipelines, tanks, or industrial systems for storage or transportation to a laboratory for analysis. Chemical composition is impeccably maintained.

We offer two distinct types of systems:

Grab Sample Module (GSM)

- **Uses pressure-containing metal cylinders.**
- Provides a sample that's held under same process conditions as when extracted (except for temperature).
- Sample vessel is docked in place; process fluid continually circulates through it, thus isolating flow and eliminating the need to flush lines or fill bottles.
- Employs a switching valve (2-valve or 3-valve configuration) to facilitate flow direction.
- 8 standard design configurations available.

GSM Panel

Liquid-Only Sampling Module (GSL)

- **Uses non-pressure-containing glass or polyethylene bottles with a self-sealing septum cap.**
- Glass provides immediate visual sample-quality feedback to inspector.
- Eliminates spillage risk or evaporation during sample draw or transport.
- Employs same switching valve mechanism as GSM.
- 7 standard design configurations available.

GSL Panel

Which Swagelok Sampling System is best for your facility? Watch for our next Grab Sampling System e-blast in two weeks.

Our Promise:

In each and every customer engagement and interaction, no matter how challenging your application or operating conditions, we will deliver premier-quality Swagelok Fluid-System Product Solutions and value-added Strategic Services that will positively impact your Bottom Line.

WE'RE YOUR SWAGELOK FLUID-SYSTEM SOLUTIONS PROVIDER

Industry-Best Componentry

Masterful Custom Fabrication

Expert Technical Training

Extensive Energy Evaluations

Unparalleled Application Knowledge

Comprehensive Hose Advisories

Proven Inventory Management Support

Genuine Swagelok Tool Rentals
