

SO, WHAT'S YOUR problem?

PRESENTING TEAM SWAGELOK: *Your Fluid-System Problem-Solvers.*

Swagelok Pittsburgh | Tri-State Area, your local Swagelok provider of premier Componentry and supplemental, value-added Strategic Services, will help you significantly improve Fluid-System safety, productivity, efficiency, and profitability – especially in your most challenging and severe applications.

OUR performance-enhancing PORTFOLIO includes:

World's Best Tube Fittings

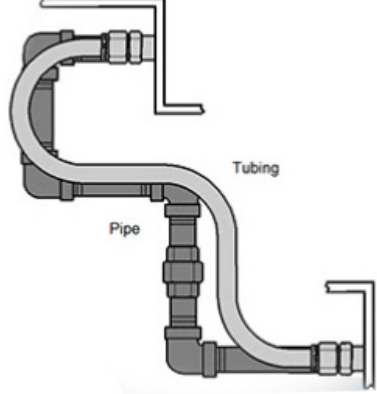

Unparalleled, proprietary two-ferrule design, superior raw materials and metallurgical chemistry, unrivaled manufacturing process and quality control.

60-Series Ball Valves

Unique swing-out design enables in-line maintenance.

Small-Bore Systems

Your cost-effective, longest-lasting, leak-tight choice versus threaded and welded systems.

Industrial Hose

Premium-quality, ultra-durable all-metal, fluoropolymer, thermoplastic, and rubber core styles – with a multitude of available end connections and cover/tag options.

Energy Evaluations

Get a free leakage audit of your gas, air, or hydraulic fluid lines.

Hose Advisories

We provide expert, no-cost recommendations on how to optimize your current hose usage, performance, and storage practices.

Custom Fabrication

Realize labor efficiencies with a Swagelok-warrantied, turnkey fabricated solution – delivered as one part number.

Gear Rentals

Why buy when you can lease our Orbital Welders, Hydraulic Swagers, and Benchtop Benders?

Technical Training

Learn how to safely and properly install fittings, bend tubing, and size/maintain hoses.

Industrial Vending

Get complete visibility and accountability around your Swagelok product spend – and ensure you'll never run out of our componentry.

Call **the Problem-Solvers** for the truly differentiated fluid-system Products and Services that will enable you to do more – more safely, faster, and effectively.

WE CAN HELP YOU SAVE TIME, MONEY, AND WORRY:
