

MEASURING UP

WHAT YOU'VE COME TO EXPECT:

Swagelok Industrial and Process Pressure Gauges deliver unparalleled accuracy while monitoring vacuum and positive system pressures up to 15,000 psi, 1000 bar, or 100 MPa.

What you might not know:

Swagelok Gauges, when employed with Swagelok tube fittings and Swagelok tube adapters, solve challenging alignment problems as safely and easily as...

1

Fully tighten the male connector.

2

Install a Swagelok adjustable gauge with pre-swaged nut and ferrules in proper orientation.

3

Tighten the nut an additional 1/4 turn from "snug" to achieve a leak-tight seal.

Best of all, there's virtually no chance to damage the gauge!

- All Swagelok Gauges are factory-calibrated and pressure-tested.
- Available with a wide variety of end connections (in addition to Tube Adapters).
- Constructed of stainless steel and reinforced thermoplastic.
- Order unfilled or liquid-filled.
- Sizes: 40, 50, 63, 100, 115, and 160 mm dials.
- Styles: General Purpose, Solid-Front, Miniature, Low-Pressure, and more.
