

# Swagelok Pittsburgh | Tri-State Area

## ***Your Local Swagelok® Fluid-System Solutions Experts***

### ***Finest in the Field***

*...sixth in a series of on-the-job success stories that demonstrate how Swagelok Componentry and Strategic Support Services consistently save you substantial time, money, and worry in even your most challenging applications and operating environments*

## ***Your Challenge***

A maker of industrial and environmental machinery took on a major project that incorporated assembled premium-quality nitrogen purge panels. But designing and choosing components for such were not this OEM's core business nor competency.

## ***Your Solution***

Fortunately, Swagelok was nearby and offered precisely the design and build expertise called for by this job. Best of all, by outsourcing these customized panels to us, our customer was then better able to apply its limited resources to all other critical aspects required to deliver the work on-time, on-plan, and, most importantly, on-budget. And, because we could drastically reduce leakage potential by minimizing the total number of threaded connections involved, the ultimate end user realized a significant improvement in overall operational efficiency.

## ***Your Healthier Bottom Line***

**Swagelok Design & Build Services:** Your safe, trusted, and field-proven means to ease your production worries and occasional overloads. Our master technicians are Swagelok-certified and our work is fully Swagelok-warrantied: simple assemblies to large, complex panels and enclosures – with all assemblies thoroughly tested and inspected, professionally labeled and packaged, and delivered as one part number... for simple ordering and re-ordering.
