Your Local Swagelok® Fluid-System Solutions Experts

...13th in a series of on-the-job success stories that demonstrate how Swagelok Componentry and Strategic Support Services consistently save you substantial time, money, and worry in even your most challenging applications and operating environments

Your Challenge

A longtime customer had an unusual dilemma: They took on a large order for 12 Type 53A mechanical seal cabinets…while simultaneously relocating the firm's Fabrication services. Customer delivery demands were also exceedingly tight. There was simply no way the job could be completed on time and within budget using only internal resources.

Your Solution

Swagelok's nearby Design and Build experts – trained and fully certified by Swagelok – were called in to assist. After the project's design was thoroughly reviewed, the Swagelok team came up with a plan to meet the account's customer's expectations. All panels were subsequently completed and delivered ahead of schedule – with zero leaks, as one part number, and with all promised and critical documentation.

Your Healthier Bottom Line

Swagelok's reliability, quality, and performance can help YOU meet your customer's needs…from our premium-quality Componentry, to our value-added Strategic Support Services, and through our overall understanding of your markets and applications.

Your Local Design & Build Services

We can help you save time, money, and worry when your production schedule is tight.
