Swagelok On-Site Support: We'll Keep You On-Plan, On-Time, and On-Budget!

Standardized Instrumentation Mounting Kits

Why wait for on-site instrument installation/engineering drawings? Swagelok now offers 12 common mounting configurations that will help you be far more competitive during the project bidding process!

Substantially reduce labor and scrap costs:

Our customizable kits can be pre-assembled, tested, wrapped, and then delivered to your jobsite for just-in-time installation. We can even stage and store them locally – to further slash your overall inventory costs and logistical concerns!

Dramatically improve worker and workplace safety:

Our pressure-isolation components are uniformly and ergonomically designed and packaged to ensure a virtually error-free handling and installation process.

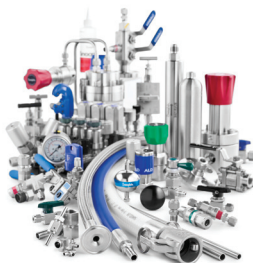

All tags, documentation, install instructions, and other key peripherals included:

You simply

“plug” in your ultra-reliable Swagelok assembly and immediately realize a healthier Bottom Line – with significantly lower labor-related costs and risks.

Unparalleled Swagelok Technical Advice

Take advantage of our proven engineering and application expertise to ensure that you always have the componentry that not only strictly adheres to project specifications – but that delivers optimal safety, productivity, efficiency, and profitability. Our five staff Engineers are 100%-dedicated to helping you reduce overall project costs and untimely delays!

Material Management

Let us stage your project material locally – until precisely when you need it. That way, you slash inventory costs and avoid related on-site logistical concerns and shrinkage. Plus, our huge nearby inventory makes us your trusted go-to for emergency componentry deliveries!

Swagelok High-Performance Strategic Services

On-Site Tube Bending / Tube Bending Training:

Our highly skilled, veteran technicians, extensively trained and certified by Swagelok Company, can perform masterful tube bending up to

2” in diameter – **right at your worksite**, no matter how challenging your application or operating environment. All of our custom fabrication work, including swaging,

bending, orbital welding, coiling, and kitting, is fully warranted by Swagelok Company. We can also teach your staff the absolute safest and best tube-bending practices – **right**

in the field. Either way, you'll virtually eliminate worker/asset harm, scrap, rework, and excess tubing inventory. Our other mobile Swagelok technical course titles: *Fitting Installation Essentials*, *Fitting Inspection Essentials*, *Tube Bending Essentials*, *Hose Essentials*, *Valve Essentials*, and *Advanced Tube Bending*.

Equipment Rentals:

Why make major capital investments in gear you simply need infrequently or for the short-term? Always in stock: Genuine Swagelok Multi-Head Hydraulic Swaging Units, Orbital Welders, and Benchtop Benders!

The Swagelok Difference

GLOBALLY...

Established:
1947

Yearly Revenues:
\$2-billion

Facilities:
7 Technical Centers
20 Manufacturing Sites

**225 Sales &
Service Centers**

Swagelok Company is the world's foremost **High-Performance Strategic Resource** for premier fluid-system Products and Services that will dramatically and unfailingly boost your worker/site/project safety, productivity, and efficiency – particularly in your most challenging applications and operating environments.

***What you want —
where and
when you need it!***

Only **Swagelok Pittsburgh | Tri-State Area** offers such a powerful portfolio of premier Product Solutions and value-added Strategic Services to optimize your fluid system.

The Swagelok Tube Fitting Advantage

No other global tube fitting manufacturer matches the Proprietary Design Standard, Raw Material Quality and Control, and Manufacturing Excellence delivered within each and every Swagelok Tube Fitting. Our unparalleled corrosion resistance yields the absolute lowest leakage rate in the worldwide fluid-system industry.

There is NO global fitting design standard – precisely why intermixing/interchanging of fitting hardware from different manufacturers is NEVER recommended!
