

Swagelok Pittsburgh | Tri-State Area

PRESENTING
YOUR LOCAL SWAGELOK®
DESIGN AND BUILD SERVICES

- **KEEPING** your workers, assets, and facilities safe
- **REDUCING** your engineering, scrap, rework, inventory, and administration costs
- **SAVING** you time and worry when production schedules are tight

OUR PROMISE

We can help you...

IF your assemblies, skids, or enclosures are taking too long, costing too much, or placing you at too great a risk...

IF you lack the necessary manpower or skills to complete your current workload...

IF overall operational inefficiencies are hampering performance and draining profits

State-of-the-Art,
5,000-square-foot
Working and Staging Area

5-ton Overhead
Crane, with
18-foot clearance

- Dedicated Swaging, Bending, Coiling, Orbital Welding, Kitting, Packaging/ Wrapping, Inspection, Testing, and Cleaning Stations

- Climate-Controlled Environment

Plus, our leak-tight, easy-to-install **panels** and assemblies are masterfully constructed with genuine Swagelok componentry.... are **fully warrantied by Swagelok Company**.... and are delivered as one part number... so you can get more out the door on-time, on-plan, and on-budget!

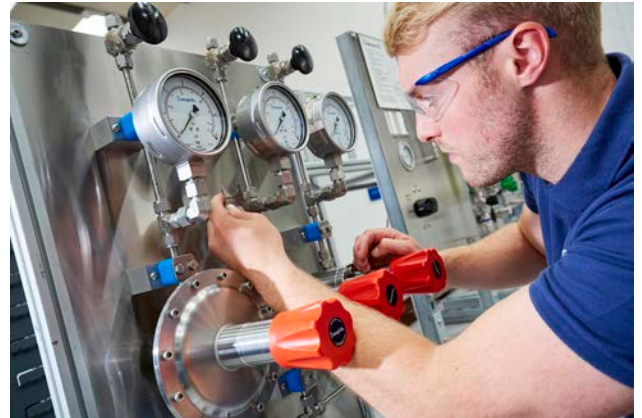

OUR PROCESS

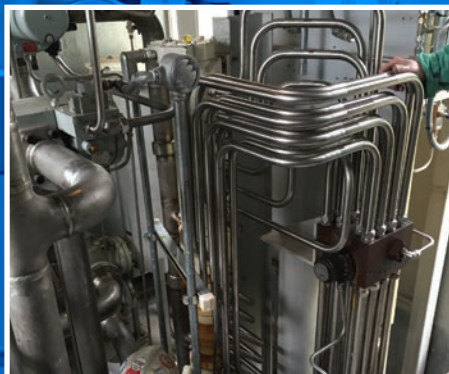

- 1** We will collaborate and work closely with you to take your initial idea to a design phase, using our CAD software to create a model – accompanied by a Bill of Materials – incorporating your exact specifications and requirements.
- 2** Next, our Swagelok-trained-and-certified technicians will build your custom assembly with as few connection points as possible for optimum long-term reliability and performance.
- 3** We will deliver a fabricated solution that will substantially enhance your site safety, productivity, and efficiency.

OUR PROOF

- Gas Purge Panels and Enclosures
- Distribution Manifolds
- Custom Flex Hose Assemblies
- High-Volume Bent Tubing Assemblies
- Sample Cylinder Assemblies
- Standard Instrumentation Mounting Kits
- Ultra-High-Purity Welded Manifolds
- Gas Delivery and Distribution Panels
- Gas and Liquid Grab Sampling Panels
- Mechanical Seal Support Systems
- Instrumentation and Transmitter Assemblies/Enclosures
- High-Pressure Test Stands
- Simple and Highly Complex Tube Bending
- Heat Exchanger Tubing Coils
- Gauge Block-and-Bleed Valve Assemblies
- Automated Ball Valve Assemblies
- Preset Relief Valves
-and so much more!

We also offer complete Maintenance Programs for Sample Cylinders and Flexible Hoses – and CAD and P&ID Design Assistance.
