

Swagelok Pittsburgh | Tri-State Area

Your Local Swagelok® Fluid-System Solutions Provider

Swagelok is Synonymous with ***SAFETY***

Your Challenge

A global maker of Petrochemicals, producing over 4,000,000 tons of base materials at just one of its sites alone each year, faced numerous critical obstacles to remain safe, efficient, and profitable. In particular, the company needed to ensure that zero amount of “improper” fluid interfered with any product-manufacturing process. This multinational firm is also passionately committed to keeping its surrounding community safe and the overall environment clean.

Your Solutions

A team of trusted Swagelok engineering and account experts closely collaborated with our customer to make certain that the ideal Swagelok leak-tight, reliable, and compatible components were selected for various key applications throughout the facility. In addition, the Swagelok associates worked diligently with on-site personnel to significantly reduce universal fluid system complexity so that potential quality-related issues are greatly minimized – or even avoided – in the future.

To further assure worker and site safety, productivity, and profitability, we also delivered extensive Fitting Installation and Process Analyzer Sampling System training sessions so that our customer could meet or exceed its stated operational excellence goals.

Your Healthy Bottom Line

Swagelok’s proven and potent portfolio of premium, long-lasting tube fittings, valves, gauges, hoses, tubing, and accessories – in combination with our masterful custom design and assembly capabilities, unparalleled safety training content depth, and comprehensive evaluation and advisory services – makes us your preeminent partner and authority for fluid-system optimization.
