

April, 12th 2021

Swagelok has earned a reputation for unmatched quality and consistency at the component level. We are committed to maintaining this reputation while continuing to grow and improve our product offering. At times, this requires changes to the form, fit or function of our core products.

This Level 1 – Notification of Change sets forth changes to one or more of the products you may have purchased from Swagelok or an authorized Swagelok sales and service center. Prior to release, each change listed was carefully evaluated in accordance with the Swagelok Quality System, to minimize impact to you, our end customer.

A Level 1 Notification relates to an applicable* change impacting Form, Fit and/or Function (“FFF”) or the cosmetic appearance of a standard product. “Standard product” is any product that does not include a customer specified product or process attribute and can be purchased by any customer. This includes off-catalog product that can be assembled through designators, assemble to order (“ATO”), make to order (“MTO”), product produced by other means.

Product Name: Sensor cable

Product Details: The cable overmold on the inductive sensor used in select ALD and DP series valves

Change Impact: ☐ Form ☐ Fit ☐ Function ☒ Cosmetic Appearance

Description and Reason for Change

- The cable overmold on the inductive sensor used in select ALD and DP series valves will have a different cosmetic appearance. The existing and alternate sensor cable overmolds are shown below:

- Recently, global cable availability has been limited, and to meet the current demand of this sensor, our supplier is using their approved secondary source of pre-molded cables.
- This cosmetic change does not impact the function of the product.

Available Options:

- No options

NOTIFICATION OF CHANGE LEVEL 1 – FOR AWARENESS

Effective Date: ☒ Immediately ☐ Future Date [ESTIMATED IMPLEMENTATION DATE]

Please note: Future shipments may contain either version of the sensor cable.

Unless otherwise noted, all changes are rolling changes and will take some time to flow through our global inventory. If you have questions regarding the impact of this change on your applications, please contact your local authorized Swagelok sales and service center representative. They, along with regional technology centers, and trained field engineers, are available to assist you.

** Applicable changes which would require notification to a Distributor or end user include changes which impact the form, fit or function of a product attribute or measurement as described in Swagelok data readily available to customers or when a change is made that is cosmetically detectable to the customer.*
