Standard Actuators with Stainless Steel Valves

Add an actuation mode designator to the ordering number.

Actuation Mode	Designator
Normally closed	-C
High-pressure normally closed	-HPC
Normally open	-O
Double acting	-D

Example: SS-92S2-C

Other Actuator Types

For a low-temperature, high-temperature, or nonfluorocarbon actuator, add an actuator designator to the ordering number.

Actuator Type	Designator
Low temperature	-LT
High temperature	-HT
Nonfluorocarbon	-NF

Example: SS-92S2-C-LT

Actuators with Brass Valves

Replace **SS** with **B**.

Example: **B**-92S2-C

Actuators with Angle-Pattern Valves

Insert **-A** into the ordering number.

Example: SS-92S2-A-C

Valves Without Mounting Brackets

Standard actuator assembly includes a mounting bracket.

Removal of the mounting bracket shortens actuator stroke and prevents valve actuation. If the mounting bracket is not used, a spacer washer is required.

To order, add **-W** to the ordering number.

Example: SS-92S2-C-W

Options and Accessories

Optional O-Ring Materials

Fluorocarbon FKM O-rings are standard. For other O-ring materials, add a designator to the valve ordering number.

Examples:

SS-OGS2-**BC**

SS-92S2-C-**BC**

In pneumatically actuated valves, only the stem tip O-ring is changed to the optional material.

O-Ring Material	Designator
Buna C	-BC
Buna N	-B
Ethylene propylene	-E
Kalrez®	-KZ
Silicone	-SI

O-Ring Kits

O-ring kits contain fluorocarbon FKM O-ring, lubricant, and instructions. Select a kit ordering number.

Valve Series	Orifice in. (mm)	O-Ring Kit Ordering Number
OG	0.080 (2.0)	VA70-9K-008
1G	0.125 (3.2)	
		0.250 (6.4)

Handles

Black nylon handles are standard. For other handles, add a designator to the valve ordering number.

Example: SS-OGS2-**BL**

Handle Kits

Handle kits contain black nylon handle and roll pin. For nylon handles of other colors, replace **-BK** with a nylon handle color designator.

Example: NY-5K-14G-**BL**

For a black aluminum handle, replace **NY** with **A**.

Example: **A**-5K-14G-BK

For a stainless steel handle, use ordering number **SS-5S-14G** for a 0.080 in. (2.0 mm) or 0.125 in. (3.2 mm) orifice size and ordering number **SS-5S-16G** for a 0.250 in. (6.4 mm) orifice size.

Handle	Designator
Blue nylon	-BL
Green nylon	-GR
Orange nylon	-OG
Red nylon	-RD
Yellow nylon	-YW
Black urethane-painted aluminum (OG and 1G [0.125 in. orifice])	-BKB
Black anodized aluminum (1G [0.250 in. orifice])	-BKB
316 SS	-SH

Valve Series	Orifice in. (mm)	Handle Kit Ordering Number
OG	0.080 (2.0)	NY-5K-14G-BK
1G	0.125 (3.2)	
		0.250 (6.4)

Handle Positioner

The handle positioner enables setting a valve handle in a desired position and prevents it from rotating—for example, in panel mounting applications where all handles must point in the same direction.

To order, add **-TGP** to the valve ordering number.

Example: SS-OGS2-**TGP**

Handle Positioner Kits

Kits include handle positioner, panel nut, and instructions. Select a handle positioner kit ordering number.

Valve Series	Orifice in. (mm)	Positioner Kit Ordering Numbers	
		316 SS Valves	Brass Valves
OG	0.080 (2.0)	SS-5K-14G	B-5K-14G
1G	0.125 (3.2)		
		0.250 (6.4)	SS-5K-16G

Spring-Return Pin

The spring-return pin stops the valve from being left in the open position.

To order, add **-SPR** to the valve ordering number.

Example: SS-OGS2-**SPR**

Low-Temperature Service

Manual valves with Buna C O-rings, aluminum handles, and lithium-thickened, silicone-based lubricant are available for low-temperature service from -65 to 200°F (-53 to 93°C).

To order, add **-LT** to the valve ordering number.

Example: SS-OGS2-**LT**

Caution: Do not mix or interchange parts with those of other manufacturers.
